

DISPEC Second Networking Meeting

11 February 2025 | Barcelona, Spain

Second Networking Meeting DISPEC HORIZON EUROPE PROJECT

Tuesday, 11 February 2025

Rectorat Building (Sala del Ilac), Campus Diagonal Nord, Universitat
Politècnica de Catalunya, C/ Jordi Girona, 31, 08034 Barcelona, Spain

You are invited to join us for the DISPEC Second Networking Meeting!

The final goal of the DISPEC project is to **provide methodologies for the derivation of high-level data products**, to further **support the enhanced and reliable use of data from ground and space-based instruments**. This ambitious goal requires the engagement of potential users and stakeholders in all phases of the project development.

The primary objective of this meeting is the **awareness of the stakeholders** about the plans of the consortium for the development of the specific high-level products, seeking **input on their requirements** and receiving **feedback on the DISPEC planned developments**.

Preliminary DISPEC products will be demonstrated in the meeting, and some inputs and thoughts from the stakeholders will be collected, mainly on the required accuracy and on the usefulness for operations concerned with the state of the ionosphere.

For more details about the meeting, practical information and registration, please visit the event webpage: <https://dispec.eu/dispec-users/networking-meetings>.
