

# DISPEC Training School

## 21-25 September 2026

### CIHEAM-MAICh, Chania, Crete, Greece

A 5-day hands-on learning event organised by the DISPEC Horizon Europe project.

The school focuses on the physics and dynamics of the ionosphere across multiple spatial and temporal scales, with particular emphasis on **ionospheric irregularities** and **space-weather-driven processes** that are often under-represented in standard models.

Through a combination of **lectures**, **discussion-oriented sessions** and **hackathons**, participants will be introduced to both established and emerging methodologies used in contemporary ionospheric research.

#### Event Details

- **Format:** In-person, hands-on
- **Speakers:** 10 lectures & mentors
- **Language:** English
- **Fees:** Funded (*The project budget covers students' accommodation and half board at MAICh*)

#### Join us to:

- assess and apply different observational and modelling tools in your own research
- engage with international research networks
- engage with the Space Safety European Programme

#### ORGANISERS

UNIVERSITAT POLITÈCNICA  
DE CATALUNYA  
BARCELONATECH

INSTITUT D'ENGINYERIA  
ESPACIAL

#### SUPPORTING PARTNER

Funded by  
the European Union
